

DT PRO defensive tactic techniques have been fully proven and perfected in the field and in practical situations.

DT PRO techniques are consistent with state and federal laws on use of force and will meet the training requirements of all employees—both public and private.

DT PRO techniques can be applied even by your typical business traveler or those who have to travel extensively around the world.

With DT PRO you will also learn how to apply effective handcuffing and restraining procedures that can be applied in both compliant and non-compliant scenarios as well as weapon disarming techniques that protect yourself, the victim, the attacker and the surrounding public from danger.

DT PRO techniques can be applied in any environment and to any attack including grappling—no tricks or quick fix gimmicks or hidden martial arts secrets. Just simple, proven, effective and humane conflict resolution techniques at their best!
